

General information

Denomination

Master (I Livello): ADVANCED IN PROSTHODONTIC SCIENCES
Learning objectives
The aim is to improve participants' knowledge in the field of occlusion, adhesive dentistry, digital dentistry applied to prosthetics. To train specialists in Dental Prosthetics according to European standards (European Prosthodontic Association) who will be able to acquire the title of European Prosthodontic Specialist. To provide potential opinion to leaders in the field of Dental Prosthetics, delving into the existing scientific literature and educating them on how to clinically and scientifically document the basic concepts of prosthetic dentistry. Putting learners in contact with the best Italian dental technicians in order to acquire all the information to manage relations with the laboratory, knowing how to communicate with patients and dental technicians and knowing the construction procedures of fixed and removable prostheses, both on natural teeth and on implants.
